2017-2021	Rajasthan Technical University B.Tech Aggregate 82%

## SKILLS

Web Development

Photoshop

Channel Manager at YouTube

Blogger

Video Creator & Editor

Photography

Problem Solving & Decision Making

## PROJECTS

### News & Media Website

I have created my own automated responsive news website i.e. post daily news in the given categories.

URL: <https://www.newsapart.com/>

### Department Management System

I and my team created the college project "Department Management System" based on Core Java with Database.

### Education Website - EDUGYAN

URL: <https://edugyan.tech/>

This website is created via HTML CSS and Bootstrap.

### Institute ERP System

Institute ERP System is the project that can manage college, institute/organization. In this, I and my team MANKRIS developed Admin Panel, Faculty Panel and Student Panel with Database that can manage the system for college departments respectively.
